SHILOH MINISTRIES (CHAD)
“Partners with Christ to reach the unreached people of
Chad” Marc 16:15/Matthew 28:18-20**

“My people are destroyed for lack of knowledge” Hosea 4:6; We are a team of missionaries who are working in Chad, Central Africa, to bring the Gospel of love of Jesus-Christ to the lost souls, and are providing HIV/AIDS prevention services to the community.

FACTS: Breast milk is the best food for a newborn baby. But when the mother is infected with HIV/AIDS, the breast milk is also infected, therefore, breastfeeding (without treatment) increases the risk of transmission of HIV from the mother to the child by 20% (WHO). In many countries in Africa, many mothers living with HIV/AIDS have no access to treatment. They breastfeed their newborn babies due to lack of money to buy milk (formula), thus infecting their babies with HIV through breastfeeding. The Shiloh Healthcare Center provides HIV/AIDS prevention services and milk (formula) for these babies. We need your help to purchase milk (formula) for the HIV/AIDS positive mothers in Chad (Central Africa) who cannot afford to buy milk (formula) for their newborn babies. \$50 will buy a month supply of formula for a newborn baby in Chad. Thank you for your monthly pledge to support the Shiloh Ministries . **“For I was hungry and you gave Me food”, Matthew 25:35**

“Blessed is he who considers the poor; the Lord will deliver him in time of trouble.” Psalm 41:1

One of our orphans. 3 years old, too weak to walk. He was infected through breastfeeding. He has developmental problems due to AIDS
